

## Gravity

GLE 0807.12.4 Identify factors that influence the amount of gravitational force between objects.  
GLE 0807.Inq.5 Communicate scientific understanding using descriptions, explanations, and models.

1. Which do you think would be stronger:
  - A. The gravitational attraction between an apple and the Earth
  - B. The gravitational attraction between an apple and the Moon
2. Explain your thinking.

3. Which do you think would be stronger:
  - A. The gravitational attraction between the Sun and Mercury
  - B. The gravitational attraction between the Sun and Pluto
4. Explain your thinking.
